

LISA LEE SCHMIDT

CULTURAL PROGRAMMING

Lisa Lee Schmidt presents Creating Creative Spaces for People with IDD. Participants will engage in games such as the Name Echo Game in which students will engage in an echoing scenario. After a series of activities, participants will be invited to move together using a Leader Stick and moving to quiet music. Using some examples of creativity, short stories are created which show how these simple acts can be made into a play and that everyone has something beautiful and creative to contribute.

Special needs participants of all ages
