

# LYRIK HUNTER

KRYSTAL DORSEY

## MUSIC PERFORMANCE

Musical performances are provided in combination with poetry/spoken word performances. Performances will oftentimes include original lyrics as well as cover tunes which will accompany the spoken word pieces included in the performance. Music is utilized to help audiences open up or enjoy a more relatable experience when sharing stories with each other and engaging the audience for crowd participation.

## LITERARY/SPOKEN WORD PERFORMANCES

Literary/spoken word performances are used to provide encouragement, guidance, and positive influences on healing & growth through expressions of all emotions. Poetry and writings are created with a goal, passion and purpose to encourage and inspire others to see difficult times through a different point of view by taking the good out of the bad and examining tough times and by extracting the lessons and positive side of things and applying them to our individual personal journey during the healing & growth process.

**Participants and audiences aged 6 and older**
