Active Public Art

Significant Updates:

Percent for Art is a City of Dallas ordinance-based Public Art Program that uses a small percentage of voter-approved bond funds to include public art in major city projects. This means when the city builds or improves things like streets, parks, and public buildings, art is added to make these spaces more vibrant and reflective of our community.

Public Art Funding - City of Dallas Public Art Ordinance established January 1, 1989

Where do Public Art dollars come from?

1989 City Public Ordinance applies a "percent for the arts" to all capital improvement projects to be used in a manner consistent with the proposition

- **0.75 percent** of project is exclusively street, storm drainage, utility or sidewalk improvements
- **1.5 percent** of the total project appropriation for all other capital improvement projects
- **.75 percent** of project is trail improvements

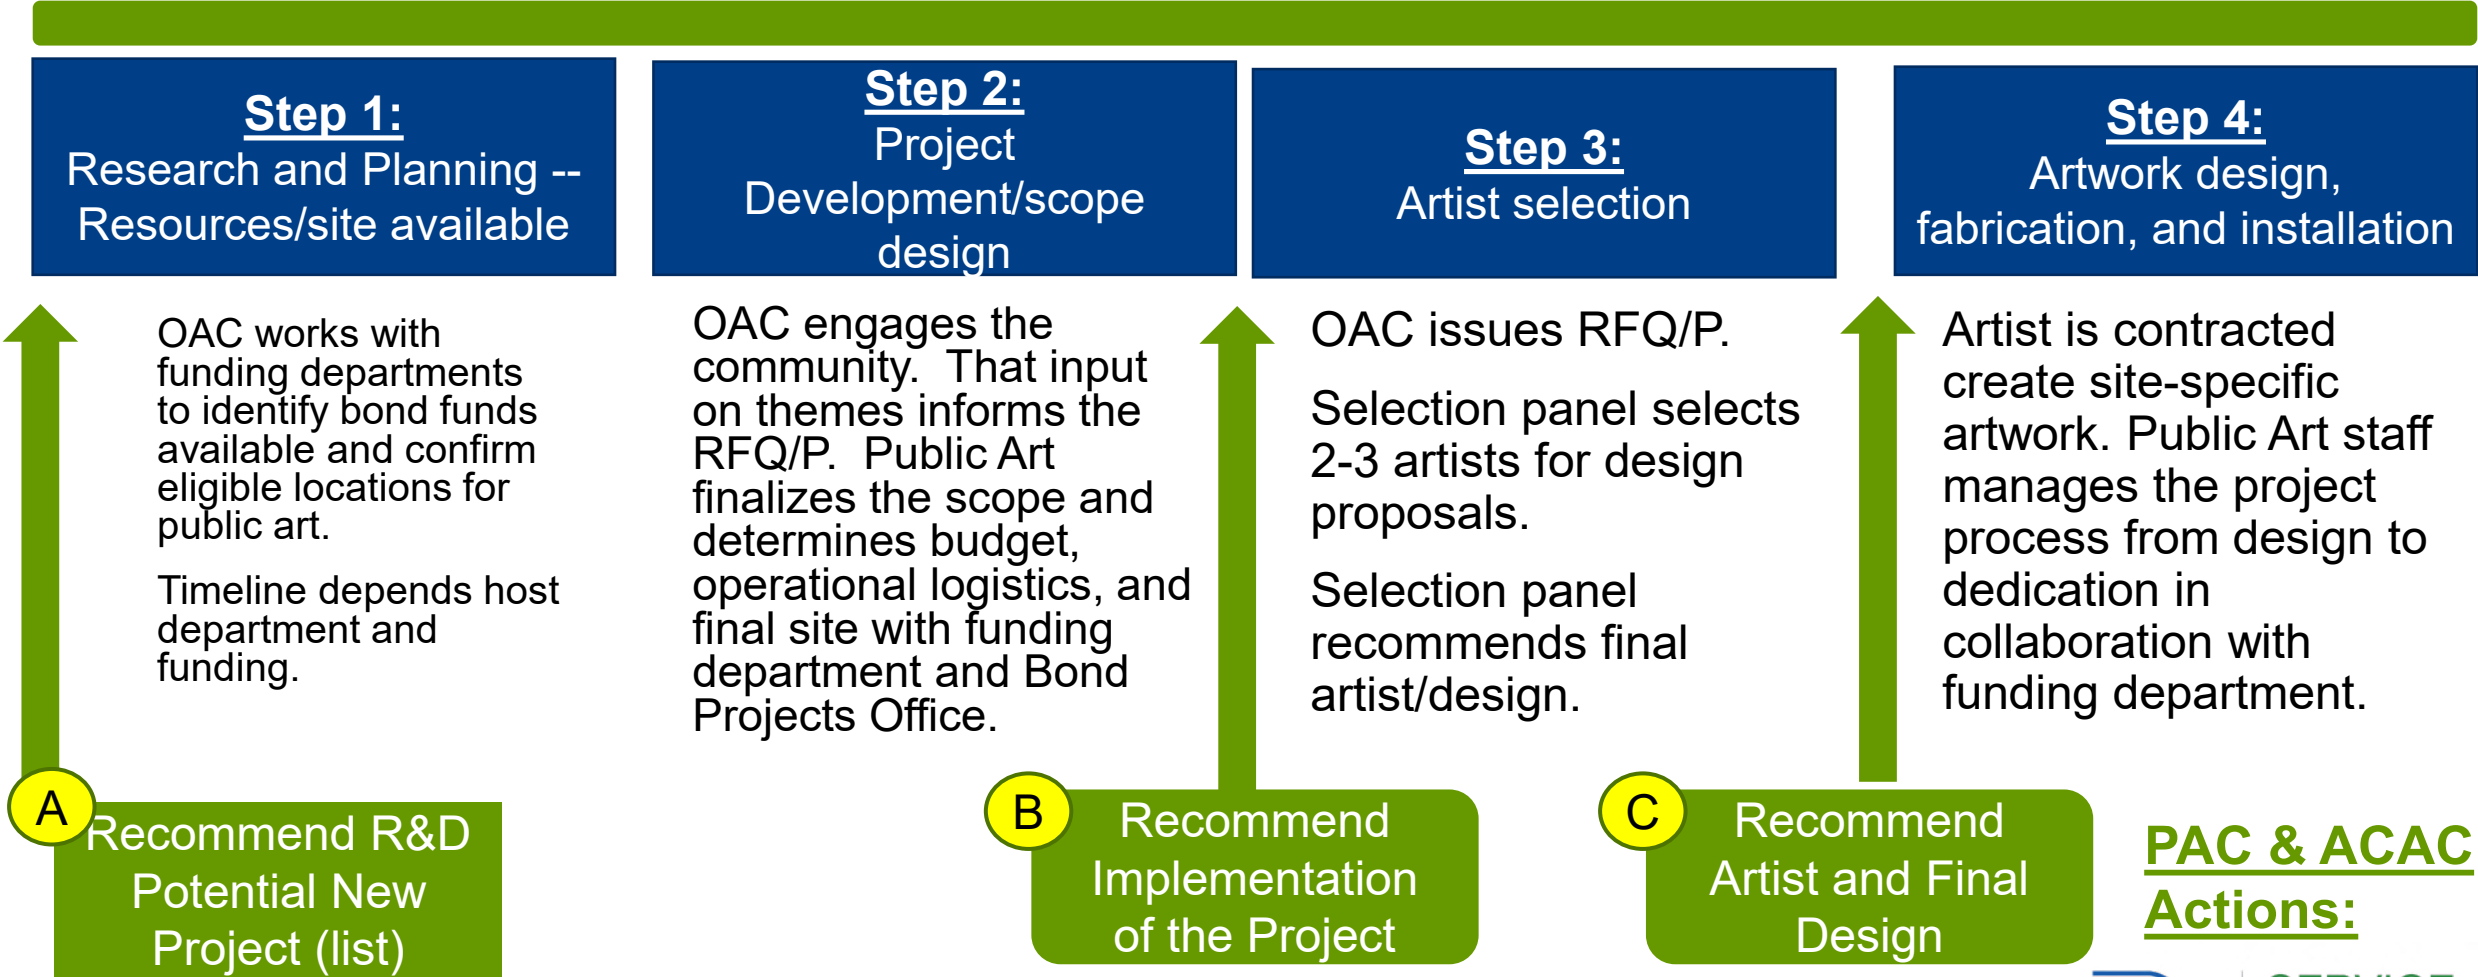

How can the money be used?

Funding can be used for design services of artists; selection, acquisition, commissioning and display of artworks; and administrative costs

How are budgets and locations set for a project?

1. Bond Office releases the funding to the funding departments where bond funding has been issued – this creates a Public Art "bank account" for each funding department
2. Public Art works with funding department to identify project locations and related funding available prior to project planning (Step 1)
 - A. For propositions with a specific location, amount and site are tied to location (e.g., Vickery Meadow Library)
 - B. For propositions with a large project(s), amount and site are tied to that project(s)
 - C. For propositions without large projects of scale or where funds are widely dispersed across the city (e.g., costs of resurfacing projects), Public Art works with Bond Office, Funding Department, and Planning and Urban Design to identify eligible sites across the city with high potential for community impact – generally consistent with Council-identified priorities

- B. Individual Commissioners may also be appointed by the Chair to serve as liaisons to cultural facilities operated by OCA (OAC).
- C. Commissioner liaisons shall be reviewed and appointed by the Chair of the Commission, based on specific interests and capabilities of individual Commissioners in order to serve as a resource to the organization.
- D. These liaison roles will allow Commissioners to report on the programs and needs of those organizations to the Commission and OCA (OAC). Direct access to individual Commissioners will enable the various cultural organizations to readily obtain information regarding the activities of the Commission and OCA (OAC).
- E. The appointments shall change every two years and/or at the discretion of the Chair of the Commission
- F. At no time during the relationship should the individual Commissioner liaison attempt to speak for or make promises on behalf of the Commission or OCA (OAC). It must always be made clear that the liaison is speaking as an individual.
- G. Liaisons may work with OCA (OAC) staff and their assigned cultural organization to address management matters (for example, funding recommendations, contract compliance issues, Arts Month planning). In his or her role as a liaison, the Commissioner may authorize another Commissioner to liaise on his or her behalf as desired. During all such conversations, the liaisons must be independent, impartial, and responsible only to the people of the City.
