Conversation with Lord

- First Cultural Plan was made from an inform/educate lens, this new cultural plan would be created to build upon work that has already been implemented
- We'd like the updated cultural plan to be actionable in 5 years instead of 7-10 years to give broad but also specific calls to action
- Focusing on how we can incorporate the existing priorities while being able to identify new priorities that have emerged since 2018
- Making sure the plan is resilient with the socio-economic and political realities of Texas
- Looking into how OAC efforts can integrate with City sister departments to amplify work and support already being provided

Planning Timelines

May 2026
